

# Young Scientist Awards at International Conference on Pediatrics and Neonatal Care

**Marcos Roberto Tovani Palone**

DDS, MSc, Ph.D., Faculty of Medicine of Ribeirão Preto, University of São Paulo, Brazil, E-mail: marcos\_palone@hotmail.com

## Young Research Forum

We are organizing the “[CPD Accredited International Conference on Pediatrics and Neonatal Care](#)” which is going to be held in **March 16-17, 2020** at **Kuala Lumpur, Malaysia**. It is better to prevent the disease rather than to try to find the cures for diseases after they occur. The main objective of this [Conference](#) is to review the new findings and advancements in the field of Pediatrics and Neonatal Care.

Allied Academies welcomes Young Researchers from Universities/Institutes/Industries to present a short oral presentation during the colloquium. The Young Researchers Forum offers young researchers the chance to meet and discuss research topics and approach share and develop ideas, learn from one another and gain information from senior researchers. [Young Researcher Sessions](#) are organized at the International Conference on Pediatrics and Neonatal Care, to provide a unique platform for Young Researchers for presenting latest research projects with an in-depth analysis.

### Eligibility:-

- Young Researcher which includes Post-Graduate students, Post-doctoral fellows, Trainees, are the focus of this event.
- The great opportunity for young researchers is to learn about the research areas of their colleagues to increase their capacity as versatile researchers.
- The participants should be below the age of 33 years.
- All abstract submissions must be submitted in English.
- None of the authors should have senior position or faculty position.

The aim of the Young Researchers Forum is to inspire and assemble along young researchers within the field of Pediatrics. The forum provides a vigorous place for discussing potential and in progress research analysis in any stage, from plan to results. The forum strives to produce a friendly atmosphere to permit young researchers to induce feedback on their work, exchange expertise, and raise queries.

The Young Research Forum event is for postgraduate students and early career researchers from any field related to digital public health and broader public health that incorporates digital technologies and innovation. It has been specifically designed to provide you with the opportunity to present your work in a friendly, supportive forum and to receive feedback from mentors and peers.

## Best Young Researcher Award

The [Best Young Researcher Award](#) may be given to the researchers of an outstanding idea/contribution presented at

the Young Researchers Forum. The award winner will be given privilege for the opportunity to present their work within the main conference program.

### Benefits:-

- Present your Innovation through your oral presentations.
- Find out regarding Career improvement and therefore the most up-to-date research analysis and advances in your field.
- Build up a foundation for joint effort among young scientists.
- The gathering can offer a chance to collegial communication with alternative young researchers and established senior specialists over the world.
- Interact and provide thoughts with each peers and mentors.
- Open door for youth scientists to seek out out regarding the examination territories of their friends to expand their ability as multidisciplinary analysts.
- Effectively flow into knowledge and advance the benefits of coaching and career matters.

[Neonatal Care 2020](#) will give them an opportunity to enhance their research as well as academic network with other experts both in their core and multidisciplinary areas and expects to set a platform for academic debates about the latest research and technological challenges necessary for addressing the immediate needs of the country. There would be plenary, oral and poster sessions including a special session for young achievers.

[Pediatrics](#) is the branch of medicine which is working with the health and medical care of infants, children, and adolescents. This is a relatively new medical specialty, raised in the mid-19th century. The father of Pediatrics is Abraham Jacobi (1830–1919). It has become the cornerstone of all the pediatric branches by working towards the health care of infants and can be regarded as a medical branch for the future generation. The main objective of the study of pediatrics is to minimize deaths rate of infant and child, control the spread of infectious disease, promote healthy lifestyles for a long time healthy life and help to alleviate the problems of children and adolescents with long-standing conditions.

We have following Conference Highlights:-

1. Pediatric Hepatology
2. Pediatric Rheumatology
3. Pediatrics
4. Pediatric Oncology
5. Pediatric Nephrology
6. Pediatric Cardiology
7. Pediatric Critical Care
8. Pediatric Allergy
9. Pediatric Asthma

10. Pediatric Cancer

11. Pediatric Dermatology

Submit [your abstract](#) for Neonatal Care 2020 .The idea of the event is for young researchers (such as defined above) to present new and ongoing work, and to receive constructive feedback from peers and senior researchers. Therefore, the work should not have appeared in print in a formally reviewed proceedings volume or journal by the time of submission, and at least one author must be a young researcher.

Neonatal Care 2020 is designed to provide up-to-date research work in Pediatrics and Neonatology to create an invaluable channel to network with global and regional leaders as well as to collaborate with Pediatrician's, physicians, neonatologists, Pediatrics nurses and other professionals in the field of child health.

#### Some Glimpses of our Previous Conference:-

Neonatal Care 2020 is meant to produce up-to-date analysis add medicine and pediatrics to make a useful channel to network with international and regional leaders moreover on collaborate with Pediatrician's, physicians, neonatologists, medicine nurses and different professionals within the field of kid health.

Pediatrics Conference for 2020 is that the best place to boost networking and would offer chance to move with world's leading scientists and researchers. Neonatal Care 2020 includes most important speakers, keynotes and interactive panels. The series of keynote talks, workshops, poster displays, discussions and networking events can keep the attendees occupied with learning and gain new collaborations. The 2 days conference includes medicine workshops, symposiums and special keynote sessions conducted by eminent and illustrious speakers within the field of medicine and pediatrics. This [global Pediatric Conference](#) also encourages the active participation of young students, upcoming researchers and budding scientists as we are hosting Poster Award Competition and Young research Forum at the conference venue.

Let's have a discussion on these latest updates @ Neonatal Care 2020 in Kuala Lumpur, Malaysia...!
